

WOODEN PALLET DP610

600 mm x 1000 mm

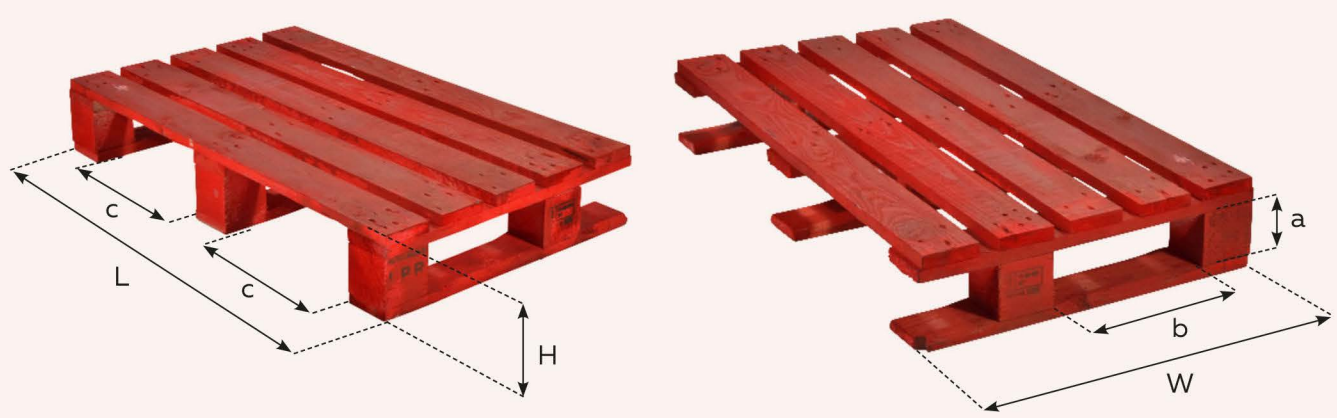

Pictures shown are not contractual

Features

- > A general purpose pallet for smaller unit loads and in-store displays which is suitable for automated production and warehousing systems.
- > LPR pallets can be used with all standard handling equipment (4-way entry).
- > LPR controls the origin of the wood in its pallet pool. LPR primarily works with certified suppliers for the wood used in its new pallets and is committed to achieving a target of 100% certified wood use for pallet repairs. No more composite blocks are used for LPR pallet manufacturing and repair.
- > Every LPR pallet is inspected and – when required – repaired every cycle according to LPR’s quality standards.
- > LPR pallets can be easily identified through its water-based red painting on all the sides of the pallets, provided by our approved suppliers.
- > LPR pallets, new or repaired, are in accordance with the standards applicable to the wooden pallets. They are unitarily checked in every rotation, and when necessary, repaired according to specific LPR’s requirements.
